FILING CUPBOARDS

The best advantage of a filing cabinet is perhaps their ability to hold large amounts of files without taking up too much floor space. Filing cabinets also make it possible for employees to categorize and store files and folders. This makes it easier for employees to retrieve information and increases productivity.

FILING CUPBOARDS SPECIFICATIONS

(Height x Width x Depth)

Filing cabinet – 1980 x 915 x 450

Filing cabinet with partition – 1200 x 915 x 450

Filing cabinet – 1200 x 915 x 450

MOBILE COMPACTOR

Mobile Compactor is a perfect modern solution for today's increasing need for space maximization compared to traditional methods of storage. This high-density option can dramatically increase storage capacity by up to 100%. With multiple advantages, Mobile compactor becomes the most preferred storage solution for companies that have less space and high storage capacity need. These are suitable for all kinds of storage requirements and are frequently used in Banks, Hospitals, Pharmaceuticals, Factories, Defense, Railways, Automobile Industries, and many more industries.

It operates on a belt drive mechanism and has adjustable shelves that create more workspace thus making it value for money. The Mobile Compactor Systems are very compact and provide smooth mobility and an exclusive locking system for storage security.

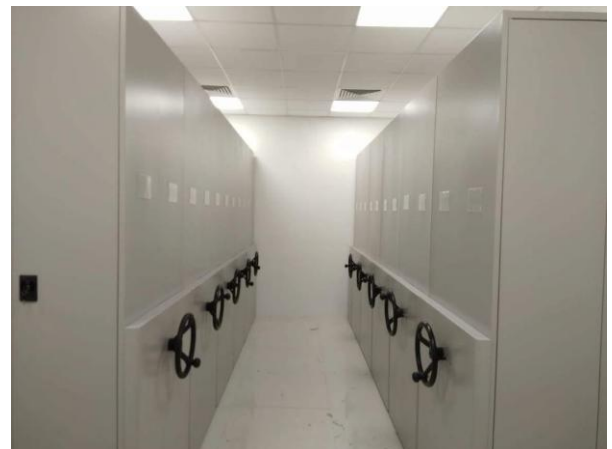

We provide this compactor system with flexible control & manifold cabinets. The color, design, pattern, size & dimensions of this system can be modified as per the space availability & client requirements.

Features:

- External Lock
- Ergonomic Handle with Quiet Pulley Belt Mechanism
- Track with levelers
- Adjustable Shelf with Pitch
- Self Suspended Installation without grouting
- Easy to operate locking mechanism fixed on the rotating handle
- Optional 2 tone color design for external cladding
- Sloping Ramp for user safety & allowing wheel trolley access

Advantages:

- High storage capacity
- Saves more than 50% space
- Suitable for various industries
- Helps to store items in an organized manner
- Easy to install

VERTICAL FILING CABINET

An effective filing system is basic to organizing files and folders in an efficient manner. The vertical filing system has many inherent advantages, including less space consumption, easier organization, and accommodation for variant filing systems.

VERTICAL FILING CABINET SPECIFICATIONS

(Height x Width x Depth)

Filing cabinet – 1980 x 915 x 450

Filing cabinet with partition – 1200 x 915 x 450

Filing cabinet – 1200 x 915 x 450

PEDESTAL

Features:

- Comfortable storage space below table units
- Centralized locking
- Drawer system with sturdy full extension bearing runner
- Mobile system for easy shifting
- Greater ergonomically comfortable accessibility advantage

PEDESTAL SPECIFICATIONS

(Height x Width x Depth)

Pedestals – 650 x 400 x 450

PERSONAL LOCKERS

Lockers are suited to a range of applications such as workplaces, universities, and end of trip facilities. No longer a purely functional item, they are now aesthetic design considerations. They solve the problems associated with individual needs in communal work environments, they aid collaboration, drive productivity, maximize space and provide better flexibility than traditional lockers. Smart lockers are also designed to be compatible with all locking system manufacturers.

PERSONAL LOCKERS SPECIFICATIONS

(Height x Width x Depth)

1850 x 380 x 450

CELLPHONE LOCKERS

Mobile Phone Lockers are robust and cautiously designed to conveniently store up to 6" Cell phones. Each Cell Phone locker has separate sections with doors. It finds the best use in Schools, Colleges and offices where patrons are required to temporarily store their Mobile phones and other Gadgets.

CELLPHONE LOCKERS SPECIFICATIONS

(Height x Width x Depth)

1400 x 1000 x 200
